3M™ Precise™ Skin Staplers

Innovation in Skin Closure

Lead
The Way

3M

Innovation is at hand.

The full line of 3M™ Precise™ Skin Staplers provides reliable performance and versatility.

Each is ergonomically and functionally designed to meet your expectations of precision and effectiveness.

Precise staplers are convenient, easy to use and disposable.

3M™ Precise™ Vista Disposable Skin Stapler

A clear angle on visibility.

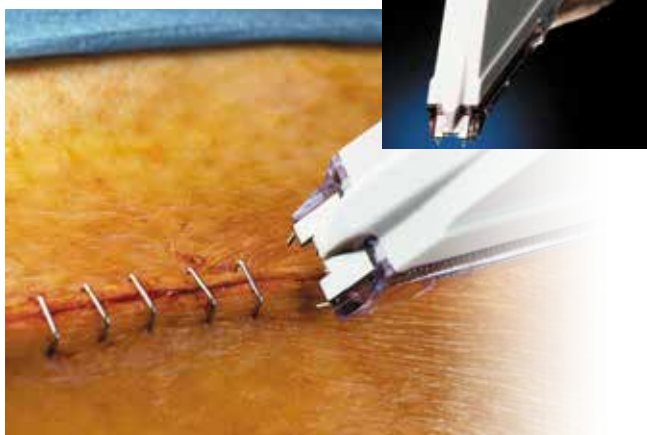

The 3M Precise Vista Disposable Skin Stapler dispenses box-style staples and is engineered to provide true staple visibility from your normal vantage point. You have a better view of your work for faster closure and optimal control. Precise Vista skin staplers are available in four configurations: 15 regular or wide and 35 regular or wide staples.

Visibility—the angled stapler head allows a clear view of the wound area for precise staple skin placement.

Ergonomic Feel—the Precise Vista skin stapler fits comfortably in your hand for enhanced control and the short trigger stroke reduces fatigue.

Versatile Staple Release—staples can be released from the retractable anvil in any direction.

Reliable—its simple design and quality construction assure consistent performance.

3M™ Precise™ PGX Disposable Skin Stapler

Quality + Simplicity = Reliability

The quality construction and design simplicity of the 3M Precise PGX Disposable Skin Stapler provides you consistent staple placement. Precise PGX skin staplers are available in two configurations: 15 wide and 35 wide staples.

Precision Handling—the stapler, with its slim, lightweight design, is comfortable and easy-to-use.

Reliable—designed to deliver consistent performance.

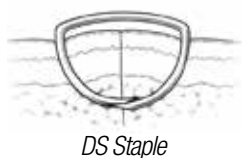

3M™ Precise™ Multi-Shot DS Disposable Skin Stapler

Cost-effective versatility.

The 3M™ Precise™ Multi-Shot Disposable Skin Stapler is designed to be a versatile, reliable and cost-effective wound closure tool. It combines the best of both worlds – reliability and disposability.

This skin stapler dispenses arcuate, suture-style staples. These “floating” staples maintain wound edge apposition without the need to fill them with tissue. It offers speed of closure, elimination of cross-hatching and ease of removal. The Precise DS staplers are available in three configurations: 5, 15 and 25 staples.

Quick and Easy to Use—simply press your thumb and index finger together to deliver a staple in a single motion.

DS Staple

No Waste—selecting only the number of staples required for each incision eliminates the extra expense of discarding unused staples.

Reliable—designed to deliver consistent performance.

3M™ Precise™ Disposable Skin Stapler Removers

Bring the procedure to a successful close.

The 3M Precise Disposable Skin Staple Removers easily remove staples.

Simple to Remove—Squeeze, lift and remove.

SR-1 (tweezers-style staple remover)

SR-3 (scissors-style staple remover)
